Figure 1: A photograph of the experimental setup. A laptop is connected to a camera, which is positioned above a table. The table has a white sheet of paper with a black grid pattern. A small object is placed on the table. The camera is mounted on a stand.	Figure 2: A photograph of the experimental setup. A laptop is connected to a camera, which is positioned above a table. The table has a white sheet of paper with a black grid pattern. A small object is placed on the table. The camera is mounted on a stand.	Figure 3: A photograph of the experimental setup. A laptop is connected to a camera, which is positioned above a table. The table has a white sheet of paper with a black grid pattern. A small object is placed on the table. The camera is mounted on a stand.	Figure 4: A photograph of the experimental setup. A laptop is connected to a camera, which is positioned above a table. The table has a white sheet of paper with a black grid pattern. A small object is placed on the table. The camera is mounted on a stand.
